Face Book: Rose Lake Forest Property Owners Association

As requested at our spring member's meeting the board of Directors will be presenting a five-year plan for the association at the fall general member meeting for review.

The building of a new pavilion was put on hold due to the huge spike in building supplies. Plans for the pavilion project will be included in our five-year plan.

What a great turnout we had for our picnic this year. Best turn-out we've seen in quite some time and hope even bigger and better next summer. Great food and so good to see so many kids having fun.

Reminder, you can add your contact info via our website rlfpoa.com, email roselakeforest@gmail.com or give us a call at 231-388-1307. This will allow the association to contact you in a timely manner. We had a member that after a recent storm had a tree fall on their roof. With no contact info besides a mailing address, the only way to notify them was by snail mail.

Water, showers and septic will be closing based on weather on or about October 1st 2021 and weather permitting will open again May 1st, 2022

The association is accepting resumes for a Financial Administrator. If you are interested or know of someone who might be interested, share the news. For more information or a copy of the job description call or text the association at 231-388-1307

As allowed in ARTICLE VIII of the RLFPOA By-Laws. The board of Directors with a majority vote on August 7th, 2021 added RULE # 12 to protect our Greenbelt. The following rule has been added to Rose Lake Forest Property Owners Association By-Laws.

Rule #12

Any tree cut without written consent from the board or damage to the greenbelt will result in up to a \$2000 fine per tree cut and replacement of cut trees. Destruction or damage to any greenbelt will result in up to a \$2000 fine, cost to repair damages, and possible criminal charges.

A summary of all rules, covenants and By-Laws along with other helpful documents are available on our website.

Best wishes from RLFPOA
